PANDEMIC
A pandemic is an epidemic occurring on a scale that crosses international boundaries, usually affecting a large number of people. Pandemics can also occur in important agricultural organisms (livestock, crop plants, fish, tree species) or in other organisms. A disease or condition is not a pandemic merely because it is widespread or kills many people; it must also be infectious. For instance, cancer is responsible for many deaths but is not considered a pandemic because the disease is not infectious or contagious. The World Health Organization (WHO) previously applied a six-stage classification that describes the process by which a novel influenza virus moves from the first few infections in humans through to a pandemic.

THE END OF POETRY

Enough of osseous and chickadee and sunflower
and snowshoes, maple and seeds, samara and shoot,
enough chiaroscuro, enough of thus and prophecy
and the stoic farmer and faith and our father and tis
of thee, enough of bosom and bud, skin and god
not forgetting and star bodies and frozen birds,
enough of the will to go on and not go on or how
a certain light does a certain thing, enough
of the kneeling and the rising and the looking
inward and the looking up, enough of the gun,
the drama, and the acquaintance's suicide, the long-lost
letter on the dresser, enough of the longing and
the ego and the obliteration of ego, enough
of the mother and the child and the father and the child
and enough of the pointing to the world, weary
and desperate, enough of the brutal and the border,
enough of can you see me, can you hear me, enough
I am human, enough I am alone and I am desperate,
enough of the animal saving me, enough of the high
water, enough sorrow, enough of the air and its ease,
I am asking you to touch me.

—Ada Limón

"And the people stayed home. And read books, and listened, and
rested, and exercised, and made art, and played games, and learned
new ways of being, and were still.
And listened more deeply.
Some meditated, some prayed, some danced. Some met their
shadows. And the people began to think differently.

And the people healed. And, in the absence of people living in
ignorant, dangerous, mindless, and heartless ways, the earth began
to heal.

And when the danger passed, and the people joined together
again, they grieved their losses, and made new choices, and
dreamed new images, and created new ways to live and heal the
earth fully, as they had been healed." — Kitty O'Meara.
